

Hi, I'm TeleBot! 🙌

Your new AI Chatbot!

TeleTracking has launched a new artificial intelligence (AI) chatbot called TeleBot. TeleBot is an additional option for customers to get support as it enables them to independently pursue answers and insights to commonly asked questions and/or chat with a Client Support Engineer for help with more complex issues.

FUN FACTS ABOUT ME!

I'm always available and can respond quickly without having to wait in a phone call queue!

If I can't answer your inquiry, I'll route our conversation to a live engineer!

The more you pick my brain, the smarter I become!

Because of my artificial intelligence, I'm constantly learning and adapting to what worked and what didn't!

FOR MORE INFO

1. Click on me in the bottom right hand corner of your screen!
2. Minimize me when working in the application. A red visual indicator appears and an audible alert sounds for new messages!
3. I automatically know who you are! (Name, email, browser, location, etc.)
4. Search / browse for content related to a specific question or general topic!
5. Didn't find what you were looking for? Want more specific content targeted to your question? Send me a message!
6. Want to reference a previous conversation we had? Click here to view all past chats!
